
YVES SUTER

London Sky. C-print. 70x100cm. 2016

Another explosion might ignite the rear section and fired the whole capsule straight into the mid-zone, which caused serious concerns by ground denf.: inferred ressources, controversal medical consequences (i.e. endocrine disorders / augmented cognitive abdolnis / collateral neurocutaneous syndomes), promercurated strucures and implented indications of strong energy loss in the nautical sections IV & V will come up for discussion by the time this precarious situation has been investigated by HIBO-forces and the intracommute eyelet (ine).

Endless mindbombing, another explosion. Floors, walls, writings and wonders. Wrong turns, decisions, lost sketches, another round? Artists and amateurs, icons, no, legends to date. Pink lambos, tar-fences, experienced skin. Cars, trees, waters and deserts right in between. There‘s more snow up there, on backseats and shotgun: Endless mindbombing, another explosion ahead.
